Edit the text in a PDF

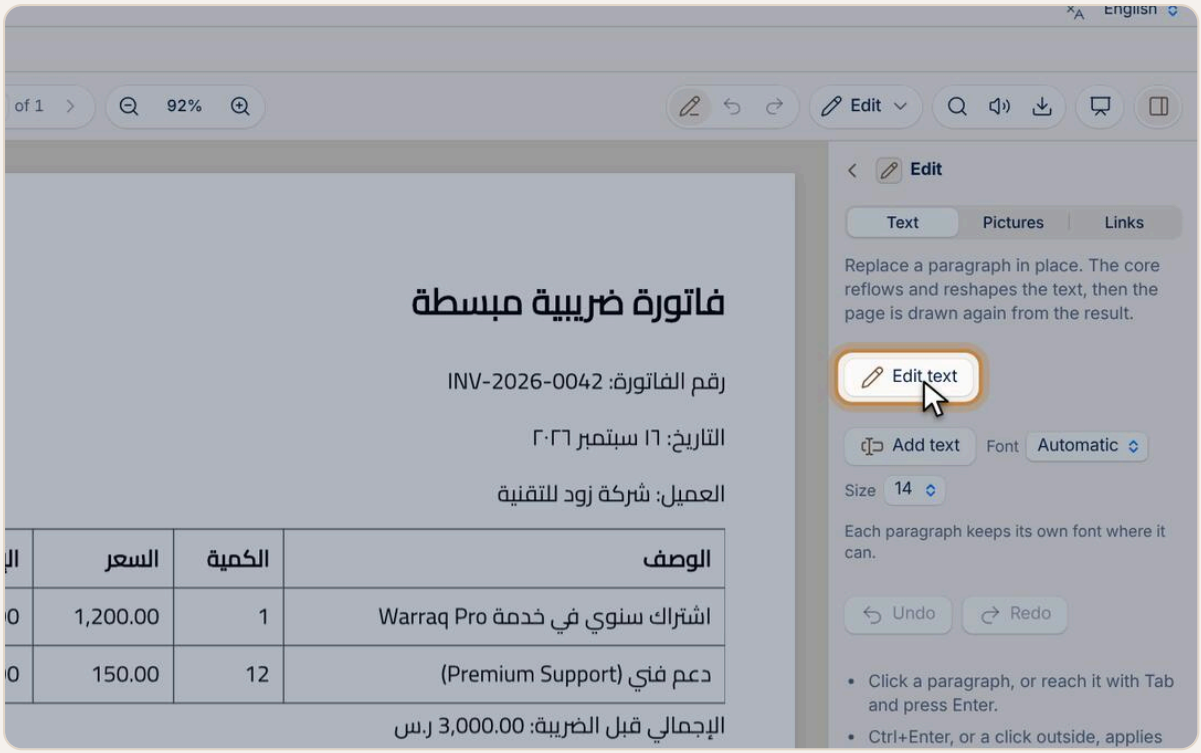

Change words where they are, with Arabic kept correct.

STEPS

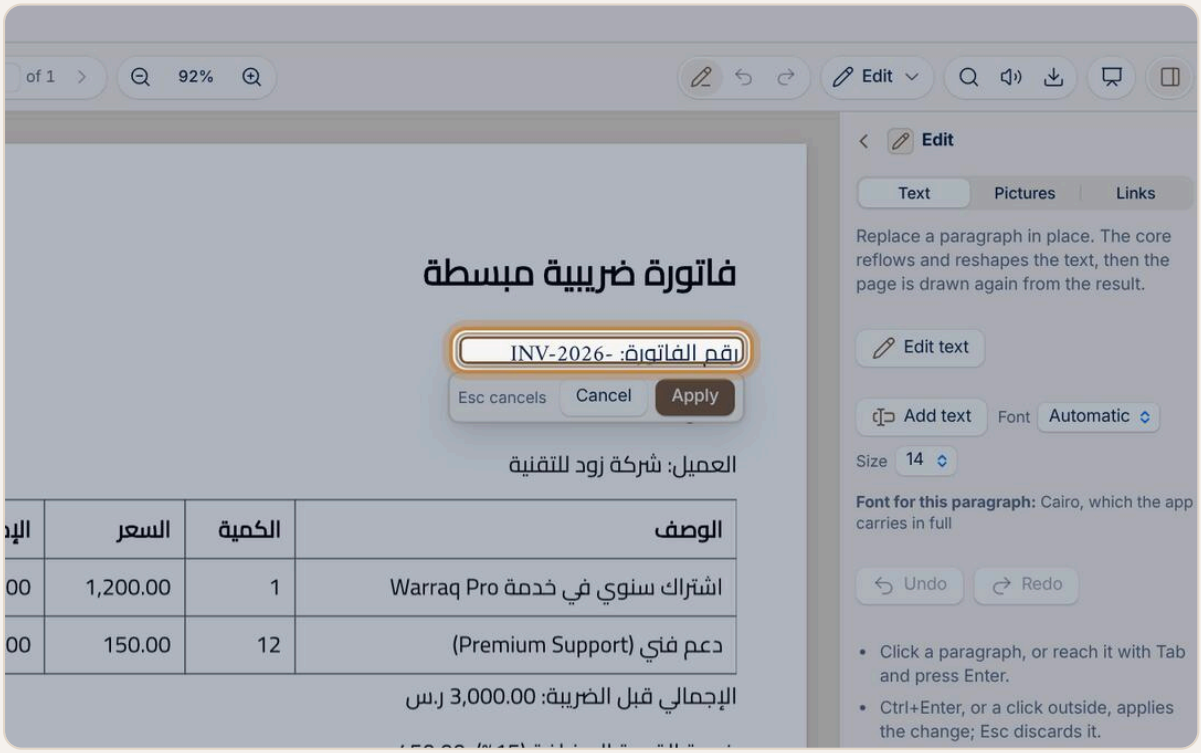

1 Open the file, then choose Edit in the tools list.

2 Press Edit text.

3 Click the paragraph and type. The lines reflow by themselves and Arabic stays joined. Ctrl+Enter applies the change; Esc cancels it.

4 Then save the file.

TIPS

To add a new line anywhere, use the Edit tool.

In the app: open Help › Help & Support, find this guide, then press Show me or Do it for me.
