Ask ZOOD in any app

In the desktop app

One key: speak or type a request, in any app.

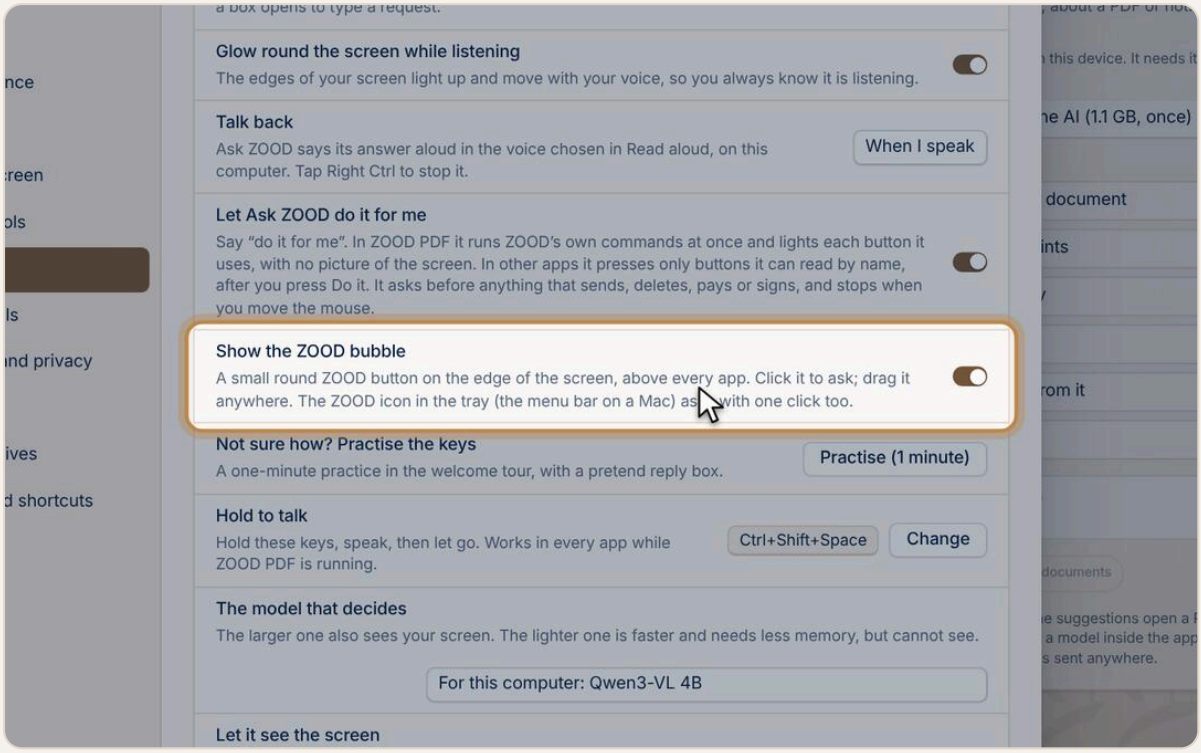

STEPS

1. Hold Ctrl+Shift+Space (⌘⇧Space on a Mac) and speak.

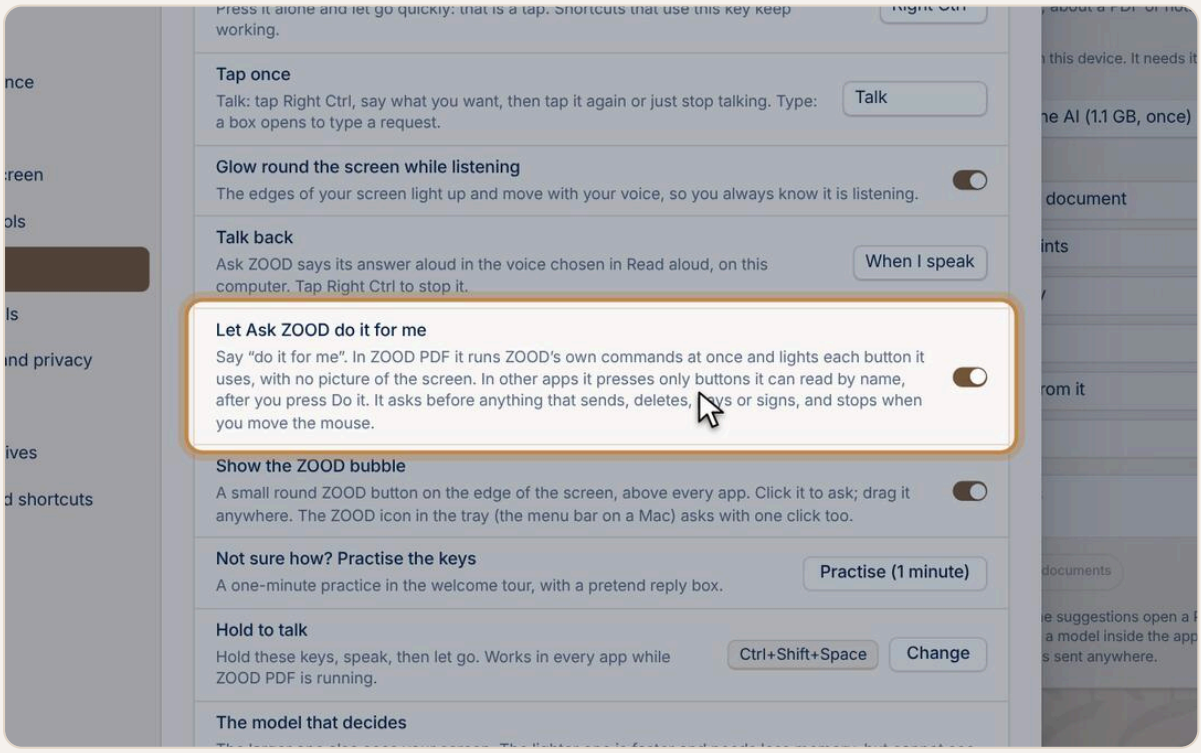

2. Or tap once to type a request, or twice in a reply box and it writes the reply.

3 Or click the ZOOD icon in the tray (the menu bar on a Mac), or the ZOOD bubble on the edge of the screen. Turn the bubble on in Settings › AI.

4 Say "do it for me": inside ZOOD PDF it runs its own commands at once and lights each button it uses; in other apps it presses buttons by their names after you agree. Turn it on or off in Settings › AI.

5 Change the keys in Settings › AI.

TIPS

On a Mac it needs Input Monitoring, Accessibility and the microphone.

In the app: open Help › Help & Support, find this guide, then press Show me or Do it for me.
