Open a PDF

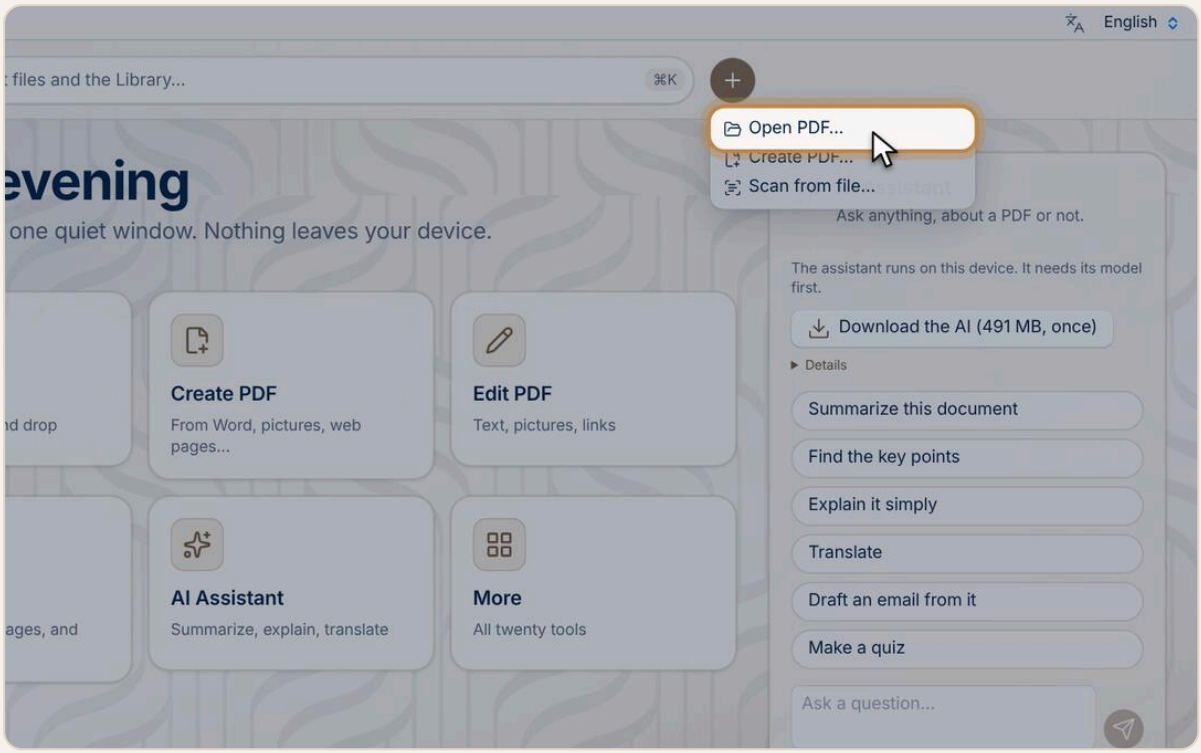

Three ways to open a file. It never leaves your device.

STEPS

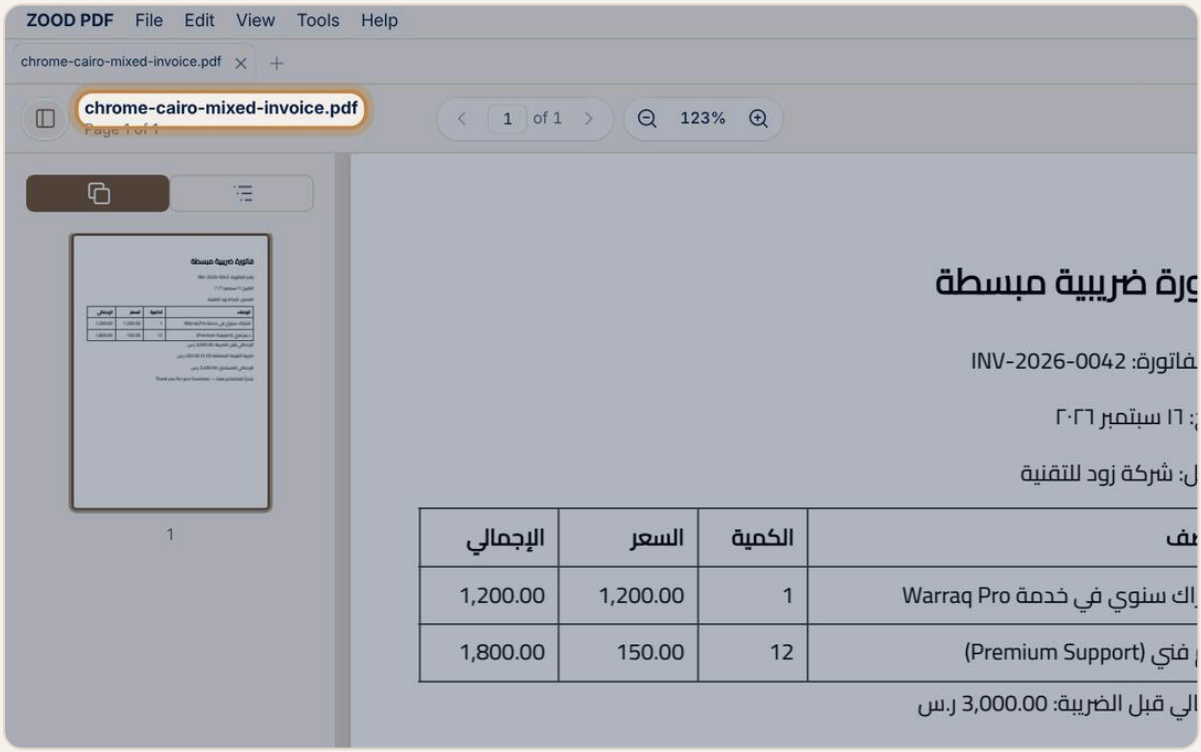

1. On the home screen, press the + button (Open or create) at the top.

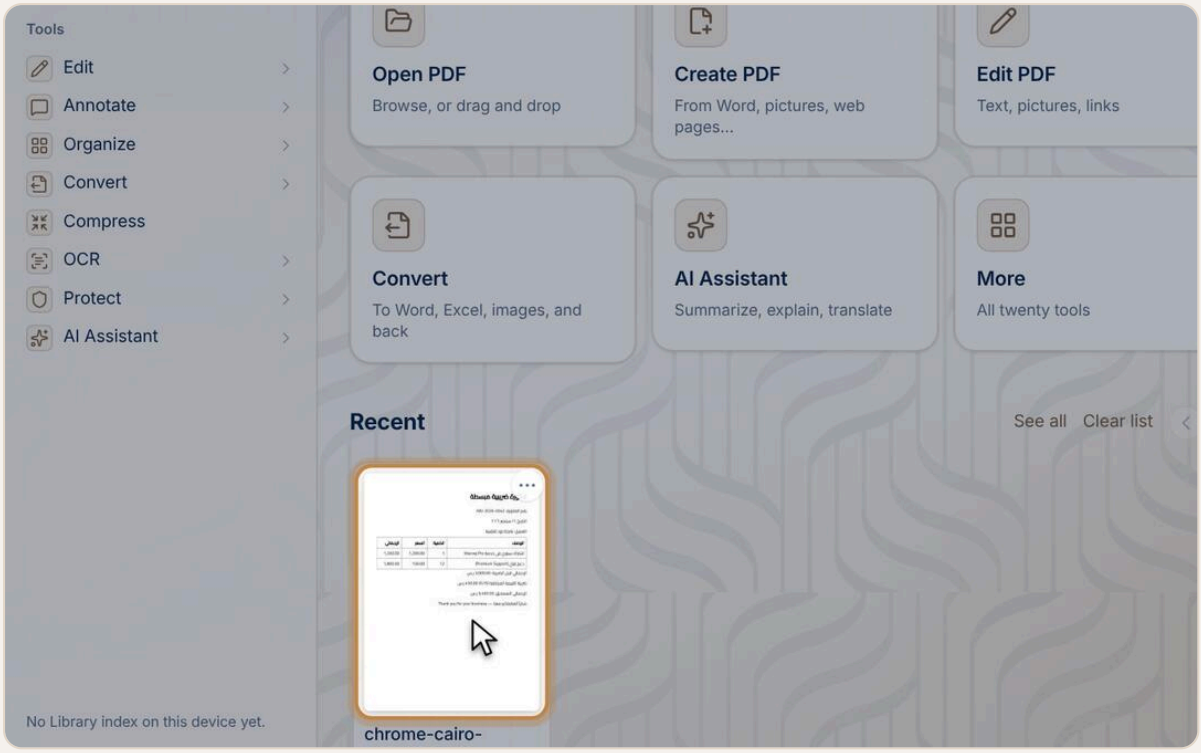

2 Choose Open PDF..., then pick your file in the window.

3 The file opens with its name at the top. You can also drag a file onto the window and drop it.

4 Files you opened appear under Recent with a picture of their first page: click one to open it again.

TIPS

Shortcut: Ctrl+O (⌘O on a Mac).

In the app: open Help › Help & Support, find this guide, then press Show me or Do it for me.
