Quick tools without opening the app

In the desktop app

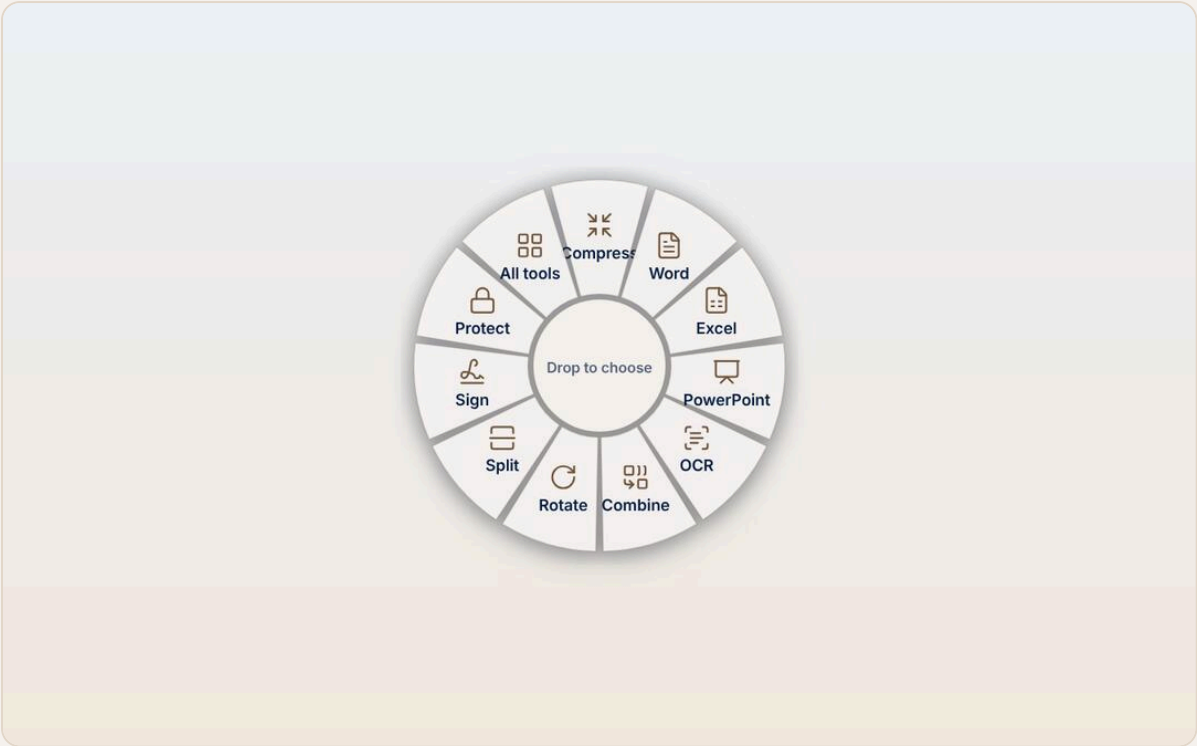

Right-click or the ring: compress, combine, convert straight away.

STEPS

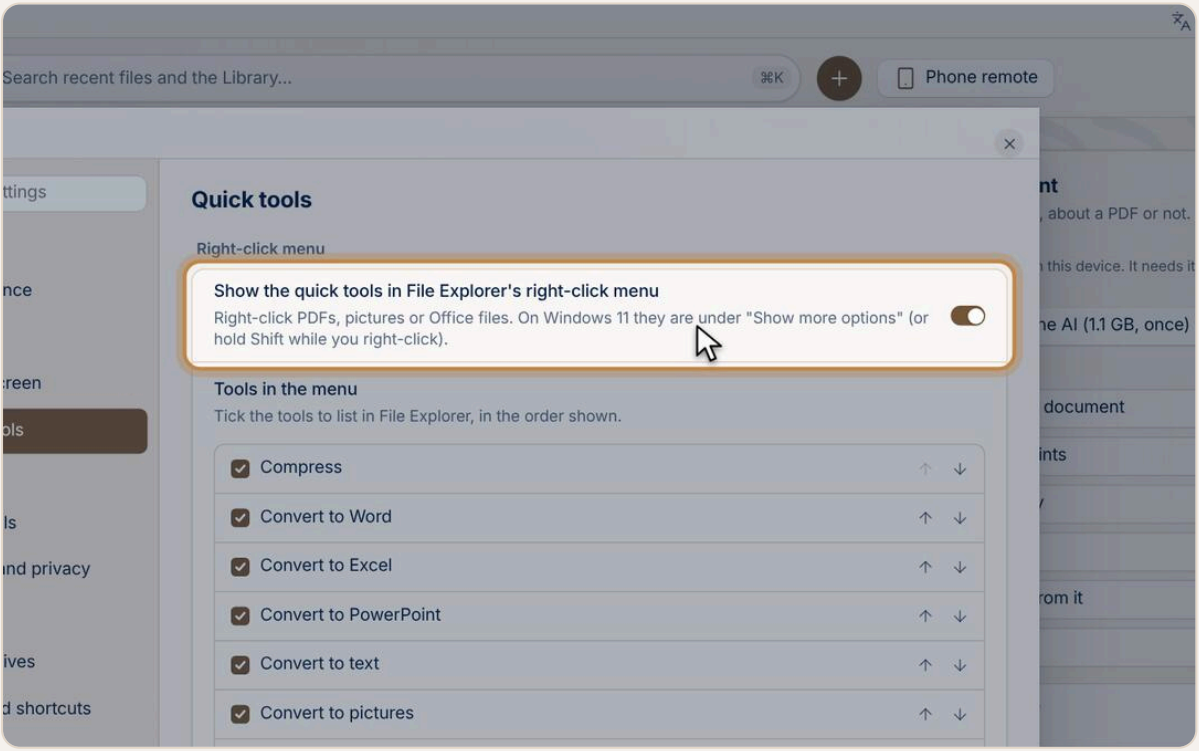

1. Select one or more files in a folder, right-click, then choose the tool. A small window with every tool opens: press the one you want.

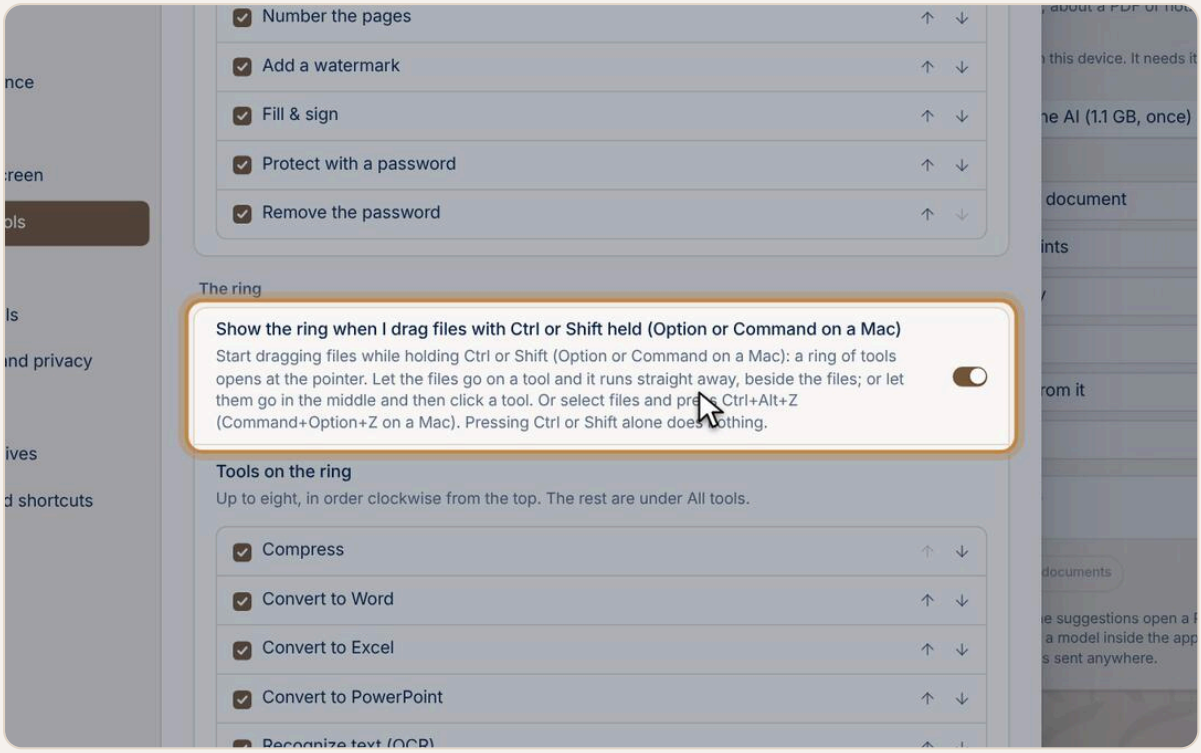

2 Or drag the files with Ctrl or Shift held and the ring appears at the pointer. Let go on a tool and it runs straight away; the result is saved beside the original.

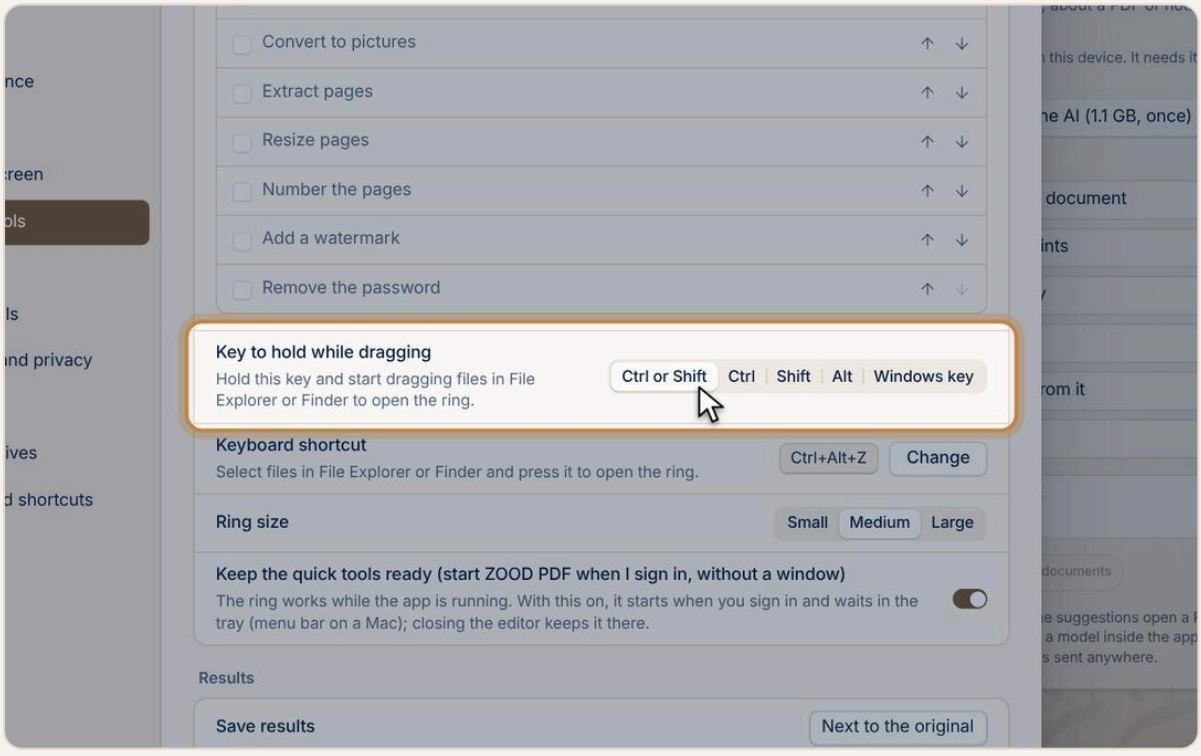

3 In Settings › Quick tools, turn on the right-click menu and choose its tools and their order.

4 In the same place, turn the ring on or off and choose its tools and its key (Ctrl+Alt+Z).

5 And choose the key you hold while dragging to bring up the ring: Ctrl, Shift, Alt or the Windows key (Option or Command on a Mac).

In the app: open Help › Help & Support, find this guide, then press Show me or Do it for me.
